

Parallel sessions 1 – Wednesday 10 September 13:30-15:00			
Room Kapittelzaal	Room Cellarium	Room Warmkamer	Room Vrouwenmantel
<p>Session 1.1</p> <p>Biodiversity &amp; restoration 1 (Assessing &amp; integration of nature conservation law)</p> <p>Chair: Alexandra Aragão</p>	<p>Session 1.2</p> <p>Climate adaptation &amp; disaster law 1 (Disaster law &amp; adaptation governance)</p> <p>Chair: Marjan Peeters</p>	<p>Session 1.3</p> <p>Urban &amp; land-use planning 1 (Permitting &amp; planning)</p> <p>Chair: Geert Van Hoorick</p>	<p>Session 1.4</p> <p>Agriculture</p> <p>Chair: Jonathan Verschuuren</p>
<p><b>Mariusz Baran:</b> Do we need to rethinking EU conservation nature (biodiversity) law?</p> <p><b>Helle Tegner Anker:</b> Water in the landscape – how to reconcile climate adaptation, water management and biodiversity concerns?</p> <p><b>Suvi-Tuuli Puharinen:</b> Marine biodiversity protection in EU environmental law – falling through the cracks of legal fragmentation?</p> <p><b>Tessa Rötscheid:</b> The assessments of alternatives in environmental law directives</p> <p><b>Elisa Cavallin:</b> The limits of environmental impact assessments and health impact assessments to cope with new challenges: towards a more comprehensive “One Health” impact assessment?</p>	<p><b>Kleoniki Pouikli:</b> The Role of EU Law in Responding to Natural Disasters: building resilience in a changing risk landscape</p> <p><b>Temilade O. Jolaosho &amp; Adeniyi I. Olatunbosun:</b> Strengthening the legal framework for climate justice and disaster control in Nigeria: Lessons from Europe</p> <p><b>Vesselina Newman:</b> Extreme Heat: Can International Human Rights Law cool the Future?</p> <p><b>Giorgia Carratta:</b> From Prevention to Adaptation? Legal Reflections on Shifting Climate Discourses in International Governance</p>	<p><b>Charles-Hubert Born:</b> Taking biodiversity into account when insulating buildings: a crucial requirement if urban wildlife is to adapt to climate change</p> <p><b>Jonas Voorter &amp; Mariet Stiers:</b> Promoting circular economy practices within the building permit and its procedure to ensure livable and flourishing cities in Belgium (and beyond)</p> <p><b>Justyna Goździewicz-Biechońska:</b> Legal frameworks for the integration of climate adaptation in local spatial planning (opportunities and barriers)</p> <p><b>Raquel Carvalho:</b> Territorial Approaches to Climate Adaptation: Rethinking Spatial Planning for Resilient and Sustainable Human Landscapes</p> <p><b>Lina Irscheid:</b> Legally Robust AI in Climate Adaptation Planning: Aligning Risk Regulation and Interdisciplinary Perspectives under the EU Artificial Intelligence Act</p>	<p><b>Matti Gurreck:</b> The uses and abuses of security in food and energy law and policy</p> <p><b>Lucie Zdráhalová:</b> Legal pathways for climate adaptation in intensive livestock farming</p> <p><b>Marina Klimke:</b> Legal hurdles for agroforestry under the EU Common Agricultural Policy</p> <p><b>Elien Verniers:</b> Enhancing Animal Welfare in the Context of Climate Adaptation</p>

Parallel sessions 2 – Wednesday 10 September 15:30-17:00			
Room Kapittelzaal	Room Cellarium	Room Warmkamer	Room Vrouwenmantel
Session 2.1 Biodiversity & restoration law 2 (Offsetting & net gain) Chair: Volker Mauerhofer	Session 2.2 Climate adaptation & disaster law 2 (Justice & basis for adaptation laws) Chair: Kleoniki Pouikli	Session 2.3 Urban & land-use planning 2 (Nature based solutions) Chair: Charles-Hubert Born	Session 2.4 EIA & environmental democracy Chair : Chris Backes
<p><b>Minna Pappila:</b> Developing Nature Credits: Lessons from Finland's Biodiversity Offsetting System and Assessment of the System from the Point of View of Climate Adaptation</p> <p><b>Håvard Berghem:</b> Compulsory purchase for biodiversity offsets – a comparative analysis of German and Norwegian law</p> <p><b>Leila Suvantola &amp; Suvi Borgström:</b> Harnessing Private Financing for Nature Restoration – Lessons Learnt from Carbon Credits</p> <p><b>Ketan Jha &amp; Brontie Ansell:</b> Citizen engagement and spatial risk in nature recovery: Early lessons and late warnings from the United Kingdom</p> <p><b>Edo Schoone:</b> Into a maze of forest trails: how national law can grow (or slow) EU green goals on climate resilient forests</p>	<p><b>Vilja Johansson:</b> Just transition in framework climate laws: Between meaningful governance and performative law</p> <p><b>Elias Van Gool:</b> 'Just resilience': Understanding the Dimension of Equity or Justice in EU Climate Adaptation Law</p> <p><b>Eleonora Ciscato:</b> From evidence to action: legal pathways for science-based climate adaptation?</p> <p><b>Paula Leskinen:</b> Ex post evaluation of climate framework legislation</p>	<p><b>Caroline Van Esbroeck:</b> Designing sustainable and healthy cities for all through nature-based solutions. Towards a binding integration of climate adaptation concerns into Flemish spatial policy planning</p> <p><b>Gunnhild Storbekkrønning Solli:</b> Nature-based solutions to climate change adaptation in urban areas: a Norwegian planning perspective</p> <p><b>Liping Dai:</b> Governing Urban Trees as Nature-Based Solutions: A Legal Analysis of Tree Management in the City of Utrecht, the Netherlands</p> <p><b>Francesco Venuti:</b> Mainstreaming nature-based solutions: Obstacles to and drivers for natural stormwater management in the Italian legal system</p>	<p><b>Maja Starosta:</b> I'm still standing: assessing the environmental impacts of legacy infrastructure in the face of climate adaptation</p> <p><b>Sharleen Quarem:</b> Strengthening climate adaptation and resilience through the mitigation hierarchy: empirical insights from environmental impact assessments in Flanders (Belgium)</p> <p><b>Jerzy Jendrośka:</b> Public involvement in climate adaptation policies and procedures</p> <p><b>Morgan Eleanor Harris:</b> Designing effective and equal opportunities for public participation in biodiversity restoration</p> <p><b>Renée Knoop:</b> Enhancing Climate Adaptation through Transparency: The Role of AI in Advancing Access to Environmental Information</p>

Parallel sessions 3 – Thursday 11 September 11:00-12:30			
Room Kapittelzaal	Room Cellarium	Room Warmkamer	Room Vrouwenmantel
Session 3.1 Biodiversity & restoration law 3 (Nature, energy & climate adaptation) Chair: Elisa Cavallin	Session 3.2 Climate adaptation & disaster law 3 (National adaptation laws) Chair: Elïen Verniers	Session 3.3 Marine ecosystems Chair: Suvi-Tuuli Pulharinen	Session 3.4 Human rights Chair: Federica Cittadino
<p><b>Emilie Ylihøjjo, Susanna Kaavi (presenter), Tiina Paloniitty (presenter):</b> Captured Biogenic CO<sub>2</sub> from Forestry Biomass: A Sustainable Pathway for Climate Adaptation?</p> <p><b>Yixin Xu:</b> Forest Actions as Nature-Based Solutions to Climate Adaption under the EU Taxonomy</p> <p><b>Britt Bocken:</b> The LULUCF-regulation in Flemish case law: a closed door for a 'climate test' in environmental permitting?</p> <p><b>Matteo Fermeiglia &amp; Heloísa Oliveira:</b> EU Law and the energy transition: Leaving soils behind?</p> <p><b>Theodoros G. Iliopoulos:</b> Economic Tools for the Alignment of the Promotion of Renewable Energy Sources with the Protection of Biodiversity in the EU</p>	<p><b>Bolesław Matuszewski &amp; Gizem Koç:</b> Adaptation in Framework Climate Laws</p> <p><b>Tim Heidler:</b> Federal Climate Adaptation Act of Germany</p> <p><b>Monirul Azam:</b> Are the Swedish Climate Adaptation Strategies delivering meaningful results for the EU's Green Deal and SDGs?</p> <p><b>Feja Lesniewska:</b> Legal Conflicts between Climate Change Adaptation Policy and Planning and Infrastructure Law in England: Implications for Blue-Green Infrastructure Management – A Case Study of Surrey County Council</p>	<p><b>Simon Vanhove:</b> Match or clash? Blue carbon governance and biodiversity protection in marine ecosystems</p> <p><b>Freya Russell:</b> Nature-Based Solutions and Legal Challenges: Bridging Legal Gaps in Blue Carbon Protection</p> <p><b>Laura Ruszel:</b> Advancing Climate Adaptation and Resilience through Maritime Spatial Planning in the European Union: A Case Study of Offshore Wind Energy Development</p> <p><b>Nikolaos Giannopoulos:</b> Towards a nature-positive offshore wind expansion? Nature enhancement measures through the lens of the EU Nature Restoration Law and Climate Adaptation Objectives</p> <p><b>Sebastiano Gianino:</b> Reconciling Offshore Renewable Energy Development and Fisheries Management: Legal Pathways Toward Synergistic Marine Use in the European Union</p>	<p><b>Jacqueline Wang:</b> Between Silence and Obligation: The Unresolved Debate on the Erga Omnes Status of Climate Protection in International Law</p> <p><b>Alicja Sikora-Kaléda:</b> Recognizing the limits of human rights as legal tools to address climate change</p> <p><b>Felix Ekardt:</b> Biodiversity, Nature Restoration Law, and Human Rights</p> <p><b>Katia Laffusa:</b> Reframing human rights: climate adaptation and biodiversity protection as interconnected challenges</p> <p><b>Hendrik Schoukens:</b> Property rights as obstacle or lever for climate adaptation: is a rethink possible?</p>

Parallel sessions 4 – Thursday 11 September 13:30-15:00			
Room Kapittelzaal	Room Cellarium	Room Warmkamer	Room Vrouwenmantel
Session 4.1 Biodiversity & restoration law 4 (Nature Restoration Regulation) Chair: Laura Hildt	Session 4.2 Climate adaptation & disaster law 4 (Governance + resilience) Chair: Matteo Fermeiglia	Session 4.3 Climate justice & litigation 1 (Accountability) Chair: Lien Stolle	Session 4.4 Opportunities & hurdles 1 (Regulatory opportunities) Chair: Enrico Mezzacapo
<p><b>Volker Mauerhofer:</b> Complement the Directed: The EU's Nature Restoration Regulations' relation to the Habitats, Birds and Environmental Liability Directives</p> <p><b>Bente de Leeuw:</b> Article 4 of the Nature Restoration Regulation: requirements for restoration measures for terrestrial, coastal and freshwater ecosystems</p> <p><b>Gilles De Keer:</b> Rewilding as a necessary tool for ecological restoration and climate adaptation</p> <p><b>Siemen Kalders:</b> The Restoration of Insects in the Nature Restoration Regulation Under a Changing Climate</p> <p><b>Nina Verbeek &amp; Rens Claerhoudt:</b> The Legal Protection of Deadwood as Saproxylic Beetle Habitat under EU Nature Conservation Law</p>	<p><b>Moritz Reese:</b> The German "Climate Adaptation Law" a blueprint for multilevel adaptation governance?</p> <p><b>Beatrice Baldini &amp; Andrea Giorgi:</b> Local Resilience, National Silence? Climate Adaptation in Italy under the EU Green Deal</p> <p><b>Aurélien Hucq:</b> Scales, levels and powers of adaptation legal frameworks. Case studies from federal Belgium</p> <p><b>Alberto Costi:</b> Adapting the Pacific: Lessons for EU Climate Adaptation and Resilience</p>	<p><b>Angel Manuel Moreno &amp; Patrizia Magarò:</b> Human rights in climate change litigation, and climate adaptation as a duty of the State</p> <p><b>Orla Kelleher:</b> Advancing climate justice in failure to adapt climate cases: the potential of a rights-based approach</p> <p><b>Carola Glinski:</b> Enterprise Responsibility for Adaptation Measures</p> <p><b>Naomi Luhde-Thompson:</b> Public attribution, multiplicity and the future – new directions in climate adaptation law</p>	<p><b>Jan Starke:</b> Under Full Sails Towards Sustainability? Law as an Accelerator in the Water Transition</p> <p><b>Marlon Boeve &amp; Ruda van Ravensteijn:</b> Designing for Uncertainty: Legal Flexibility through Temporality for Climate Adaptation in Spatial Planning. Exploring the Limits and Possibilities of Time-Limited Authorisations in Dutch and European Environmental Law</p> <p><b>Alison Hardiman:</b> Case Study: Response to Extensive Storm Éowyn Damage in Ireland. Dealing with Emergencies in the Context of the Requirements of the Habitats Directive</p> <p><b>Rhoda Jennings:</b> The data dilemma in EU climate adaptation law</p>

Parallel sessions 5 – Thursday 11 September 15:30-17:00			
Room Kapittelzaal	Room Cellarium	Room Warmkamer	Room Vrouwenmantel
Session 5.1 Biodiversity & restoration law 5 (Nature Restoration Regulation) Chair: Morgan Harris	Session 5.2 Water 1 (Water protection) Chair: Jessica Stubenrauch	Session 5.3 Climate justice & litigation 2 (Liabilities & inaction) Chair : Carole Billiet	Session 5.4 Opportunities & hurdles 2 (Transformative change) Chair: Theodoros Iliopoulos
<p><b>Katarzyna Aleksandra Jancewicz:</b> The EU's Nature Restoration Law and administrative designs of the Member States: does the procedural organise the institutional? Reflections on the emerging inter-sectoral, multilevel but (still) nation-centred governance framework in the context of transboundary climate change adaptation challenges</p> <p><b>Marvin Neubauer:</b> The EU Nature Restoration Law as Policy Planning Law?</p> <p><b>Gustavo Manuel Hernández Arteaga:</b>The Law of Peri-Urban Ecosystem Restoration: Blue and Green Ecological Corridors in Environmental Spatial Planning in Spain</p> <p><b>Irene Sicignano:</b> Interpretative paths for a coherent implementation of the Nature Restoration Law: lessons learned from the Nature Directives jurisprudence</p> <p><b>Laura Hildt:</b> Systemic biodiversity litigation under the EU Nature Restoration Law</p>	<p><b>H.K. Gilissen &amp; Mart van Esterik:</b> Nature-based solutions and water safety: legal opportunities and barriers for flood resilient landscapes in the Southwest Delta</p> <p><b>Dianthe Verhoef:</b> Rethinking (and redesigning) EU and Dutch water law for a climate-resilient water system</p> <p><b>Omid Bechmann:</b> Good groundwater status according to WFD: A “climate-proof” framework?</p> <p><b>Ida Mae de Waal &amp; Aster Veldkamp:</b> Wastewater reuse: water circularity as a pathway to climate-proof water use? Legal avenues for the transition to circular water management</p> <p><b>Álvaro Martín Morán:</b> Watering the Hydrogen Dream: Legal challenges in Spain's hydrogen ambitions</p>	<p><b>Oumayma Nejjar:</b> Climate Inaction as a Criminal Omission: Expanding Environmental Criminal Law in the Face of Adaptation Failure</p> <p><b>Tadesse Tesfaslassie Tekle:</b> Proportionality in Environmental Sanctions</p> <p><b>Filipa Calheiros Ferraz:</b> Causality in climate lawsuits against a European state by falling short of timely implementing the necessary adaptation measures</p> <p><b>Haomiao Du:</b> Stocktaking the best available science for bridging the evidentiary gaps in determining climate liabilities for loss and damage</p>	<p><b>Alexandra Aragão:</b> Short-term actions, long-term Impact: overcoming dilemmas of climate change adaptation through transformative nature restoration for sustainable transitions</p> <p><b>Rosalind Malcolm:</b> “LIVING WELL ON A FINITE PLANET: A multidimensional systems approach to sustainability leading to climate change adaption”</p> <p><b>Natalie Harris:</b> Ecological modelling- a crucial tool in the planning and implementation of climate adaptation strategies</p> <p><b>Varnika Srivastava:</b> Justice for Providers: Rethinking Payment of Ecosystem Services for Systemic Change</p> <p><b>Ting Chen &amp; Frederik Vandendriessche:</b> Responding to climate adaptation challenges: The role of EU energy law and potential regulatory pathways</p>

Parallel sessions 6 – Friday 12 September 9:00-10:30			
Room Kapittelzaal	Room Cellarium	Room Warmkamer	Room Vrouwenmantel
Session 6.1 Biodiversity & restoration law 6 (Transboundary governance) Chair: Endrius Cocciolo	Session 6.2 Water 2 (Biodiversity & wetlands) Chair: Helle Tegner Anker	Session 6.3 Climate justice & litigation 3 (Litigation) Chair : Luc Lavrysen	Session 6.4 Opportunities & hurdles 3 (including economic instruments) Chair: Eleonora Ciscato
<p><b>Maria Marques-Banque, Endrius Cocciolo, Jordi Jaria-Manzano, Alexandre Moreno-Urpí &amp; Mònica Pons-Hernández:</b> On fire ? Gaps in Transboundary Governance of Biodiversity Clusters in Europe. The Case of Wildfire Prevention in the Meseta Ibérica TBR</p> <p><b>Federica Cittadino:</b> Climate adaptation in transboundary biodiversity cooperation schemes: strategies and measures to tackle climate-related challenges in the Julian Alps case</p> <p><b>Nienke Van der Burgt:</b> Restoring nature under climate pressure: balancing restoration and pollution control. Practical challenges from the Scheldt estuary</p> <p><b>Paula Tulppo:</b> Offshore wind power and migratory fish</p> <p><b>Paulo Canelas de Castro:</b> Building the bridge between two disparate laws? The Luso-Spanish Convention on shared rivers and its emerging model of addressing climate concerns</p>	<p><b>Thilo Tesing:</b> Wanted only for their services? – Wetland restoration obligations in the Water Framework Directive</p> <p><b>Katrine Broch Hauge &amp; Endre Stavang:</b> Restoring wetlands to create resilient nature and societies</p> <p><b>Matilde Meertens:</b> The importance of wetlands for climate adaptation in cities: The Wiels Marsh case study</p> <p><b>Martijn van Gils:</b> What are the legal challenges concerning water management and spatial planning and land use for rewetting Dutch peatlands and the possible solutions to these challenges?</p> <p><b>Milan Damohorský:</b> Biodiversity, Water, and Nature Restoration Law in the Czech Republic and Central Europe: Legal Challenges and Climate Resilience</p>	<p><b>Ludovica D'Apote:</b> “To Litigate or to Participate, That is The Question”: How the Absence of Environmental Democracy Fuels Climate Justice</p> <p><b>Kata Dozsa &amp; Liliana Lizarazo Rodriguez:</b> Litigating for Climate Justice: Transnational Litigation in Practice</p> <p><b>Trevor Daya-Winterbottom:</b> From Urgenda to KlimaSeniorinnen Schweiz – the normative impact of European jurisprudence on climate justice</p> <p><b>Niklas Täuber:</b> A human rights-based approach to climate adaptation law – the procedural dimension of positive obligations in “KlimaSeniorinnen” and beyond</p>	<p><b>Natálie Polanská:</b> Economic Instruments in the EU Law and their Potential for Enhanced Environmental Protection and Climate Adaptation</p> <p><b>Nadia Coggiola:</b> Regulating the compensation of climate change damages, between private insurances and public interventions</p> <p><b>Stefano Fanetti:</b> Disaster Insurance for Households and Businesses: Analysing the Italian Experience through a Comparative Lens</p> <p><b>Michele Cespa :</b> Weather derivatives to bear climate risks: embedding sustainability in credit assessment</p> <p><b>Francesco Vetrò &amp; Nicola Brignoli:</b> Adaptation and the Climate Crisis: towards a European Law of Crises</p>
